HOROSCOPE

If you were born between April 20th and May 20th you were born under the sign of Taurus. The 2019 horoscope for the Taurus zodiac sign predicts that you may adopt some radical new changes to the way that you look and act this year. Taurus's have the ability to see things from a grounded, practical and realistic perspective. They find it easy to make money and stay on same projects for years, or until they are completed. What we often see as stubbornness can be interpreted as commitment, and their ability to complete tasks whatever it takes is uncanny. This makes them excellent employees, great long-term friends and partners, always being there for people they love.
